About Heat Pumps:

Heiltsuk Tribal Council has raised more than \$600,000 to install central air source heat pumps in some of our homes. These systems use the same ducting (ventilation) as diesel furnaces but are powered by electricity. Heat pumps are three times more energy efficient than baseboard electricity and provide cheaper heating than diesel fuel.

Installation of a heat pump will mean:

- Your diesel/oil furnace tank will be removed and replaced by a heat pump
- You can still use your wood stove for backup heating
- The electric panel for your house and ducting (ventilation) may be upgraded or cleaned
- You will not incur any costs for installation or other work on your home

Selection Process:

All applications will be considered and the priority will go to homes that have the greatest need at this time, based on the criteria below. Homes with the greatest need will receive heat pumps at no cost. Homes that are not selected in this round will be notified and informed about plans for additional installations.

Household Information:

The following information will be used to evaluate your household's need for a heat pump. Unfortunately, it is likely that some homes will not be able to receive heat pumps at this time due to high interest.

Please circle yes or no for the following questions:

Yes / No	My current heating system is not working
Yes / No	My home has adequate insulation and ducting
Yes / No	An oil/diesel furnace is present in the home (does not need to be working).
Yes / No	A wood heat source is available in the home for heating

Yes / No	I am an elder
Yes / No	I have a disability or other medical need (ie. Respiratory issues)
Yes / No	I am on social assistance
Yes / No	I live in band rental housing
Yes / No	I live in a one story home
Yes / No	I live in a two story home
Yes / No	I live in a duplex or other home type
Yes / No	I have previously applied for a heat pump
Yes / No	I am able to pay for the cost of a heat pump myself (about \$12,000)

Questions or Comments

Please provide any questions or comments you have:

BC Hydro Bill Information

I agree to provide authorization for Heiltsuk Tribal Council to review my BC Hydro billing history to help assess heat pump performance. I also agree to take part in a survey before and/or after installation to provide feedback on the project.

Why does Heiltsuk Tribal Council need this information?

Heiltsuk Tribal Council is committed to reducing greenhouse gas emissions and the use of diesel in our community. BC Hydro bills will help us measure the cost savings and environmental benefits of these heat pumps. Your personal and household information will be kept private and confidential. It will only be used as a part of a community average.

Agreement & Signature

By submitting this application, I affirm that the facts set forth in it are true and complete. I understand that if I am accepted as a candidate, any false statements, omissions, or other misrepresentations made by me on this application may result in my immediate dismissal.
